

Canyon Creek School District

COVID-19 Emergency Measures

1905

Student, Staff, and Community Health and Safety

The School District has adopted the protocols outlined in this policy during the term of the declared public health emergency to ensure the safe and healthy delivery of education services provided to students on school property in accordance with Policy 1906, and a safe workplace when staff are present on school property in accordance with Policy 1909, and the safety, health and well-being of parents and community members. The supervising teacher, principal, superintendent or designated personnel are authorized to implement the protocols in coordination with state and local health officials.

Symptoms of Illness

Students and staff who are ill, feeling ill, diagnosed as ill, or otherwise demonstrating symptoms of illness must not come to school or work. Students who have a fever or are exhibiting other signs of illness must be isolated in a designated area until such time as parents or caregiver may arrive at the school to retrieve the ill student. All surfaces and areas should be thoroughly cleaned and disinfected once the student has vacated the area by staff utilizing safety measures in accordance with state and/or local health standards as applicable. If diagnosed with Covid 19 students may engage in alternative delivery of education services during the period of illness or be permitted to make up work in accordance with District Policy 1906. Staff members will be provided access to leave in accordance with District Policy 1911 or the applicable Master Contract or Memorandum of Understanding.

Parents, guardians, or caregivers of students who are ill, feeling ill, diagnosed as ill, or otherwise demonstrating symptoms of illness must not be present at the school for any reason including but not limited events or gatherings or to drop off or pick up students as provided by this policy. To avoid exposing others to illness, parents or caregivers who are ill must make arrangements with others to transport students to school or events, if at all practicable. If not practicable, parents, guardians or caregivers must not leave their vehicle during pickup or drop off and must arrange with District staff to supervise students in accordance with physical distancing guidelines in this Policy.

Physical Distancing

Students, staff, volunteers, and visitors will maintain normal conditions within the school building but be aware of opportunities that allow students to be spread out in the learning environment. Staff members will arrange classrooms and restructure courses, transportation services, and food service to meet this standard. Canyon Creek will not be enforcing a three foot or six foot distance requirement for the 2021-22 school year unless Covid levels increase, requiring limitations to be put back in place.

Recess will continue as scheduled in accordance with use of playground equipment. If Covid 19 resurges within the school community the district will return to segregated playground spaces to allow for physical distancing and harsher controls of the spread of the disease. .

Drop off and pick up of students will be completed in a traditional manner allowing for students to ride together as families groups. The use of masks may still be required based on County levels of Covid 19 exposure. Windows will continue to be left open on the busses when the weather allows for fresh air.

Masks as Personal Protective Equipment

Staff and students may wear a mask while present in any school building. The School District does not require the use of masks and will not provide masks except in cases required by this policy or at the discretion of the administration. The Board of Trustees' decision to not require or provide masks is based on a review of the circumstances in the community and consultation with local health officials on issues including but not limited to the possibility of exposure and availability of masks.

Cleaning and Disinfecting

School district personnel will routinely both clean by removing germs, dirt and impurities and disinfect by using chemicals to kill germs on all surfaces and objects in any school building and on school property that are frequently touched. The entire facility will be cleaned each evening the school is in session and specific touch points will be addressed throughout the day.

Personnel will clean with the cleaners typically used and will use all cleaning products according to the directions on the label. Personnel will disinfect with common EPA-registered household disinfectants. A list of products that are EPA-approved for use against the virus that causes COVID-19 is available from the supervising teacher or administrator. Personnel will follow the manufacturer's instructions for all cleaning and disinfection products.

The District will provide EPA-registered disposable wipes to teachers, staff, and secondary students so that commonly used surfaces (e.g., keyboards, desks, remote controls) can be wiped down before use. Supervising teachers or administrators are required to ensure adequate supplies to support cleaning and disinfection practices.

Student Arrival

Hand hygiene stations will be available at the entrance of any school building, so that children can clean their hands before they enter. If a sink with soap and water is not available, the School District will provide hand sanitizer with at least 60% alcohol. Hand sanitizer will be kept out of elementary students' reach and student use will be supervised by staff.

A District employee will greet children outside the school as they arrive to ensure orderly compliance with the provisions of this policy.

Temperature Screening

Designated School District staff are authorized to test the temperature of students with an approved non-contact or touchless temperature reader. Students who have a fever or are exhibiting other signs of illness must be isolated in a designated area until such time as parents or caregiver may arrive at the school to retrieve the ill student. All surfaces and areas should be thoroughly cleaned and disinfected once the student has vacated the area.

When administering a temperature check on a possibly ill student, designated staff members will utilize available physical barriers and personal protective equipment to eliminate or minimize exposures due to close contact to a child who has symptoms during screening.

Healthy Hand Hygiene Behavior

All students, staff, and others present in the any school building will engage in hand hygiene at the following times, which include but are not limited to:

- Arrival to the facility and after breaks
- Before and after preparing, eating, or handling food or drinks
- Before and after administering medication or screening temperature
- After coming in contact with bodily fluid
- After recess
- After handling garbage
- After assisting students with handwashing
- After use of the restroom

Hand hygiene includes but is not limited to washing hands with soap and water for at least 20 seconds. If hands are not visibly dirty, alcohol-based hand sanitizers with at least 60% alcohol can be used if soap and water are not readily available.

Staff members will supervise children when they use hand sanitizer and soap to prevent ingestion.

Staff members will place grade level appropriate posters describing handwashing steps near sinks.

Vulnerable Individuals

Employees who have documented high risk designation from a medical provider are entitled to reasonable accommodation within the meaning of that term in accordance with the Americans with Disabilities Act and Section 504 as outlined in District Policy 5002. These accommodations may include but are not limited to teleworking in accordance with a work plan developed in coordination with and authorized by the supervising teacher, administrator or other designated supervisor. Such employees may also be eligible for available leave in accordance with the applicable policy or master agreement provision.

Food Preparation and Meal Service

Facilities must comply with all applicable federal, state, and local regulations and guidance related to safe preparation of food.

Sinks used for food preparation must not be used for any other purposes.

Staff and students will wash their hands in accordance with this policy.

Transportation Services

The Board of Trustees authorizes the transportation of eligible transportees to and from the school facility in a manner consistent with the protocols established in this policy. Canyon Creek will not be using cohort specific busses for the 2021-22 school year. Routes will be designated for the purpose of transporting students to and from school with efficiency and foremost safety in mind. Masks will be required only if CDC or state and federal mandates require the use of masks while being transported, or if the district sees it necessary to implement this requirement.

Public Awareness

The School District will communicate with parents, citizens, and other necessary stakeholders about the protocols established in this policy and the steps taken to implement the protocols through all available and reasonable means.

Confidentiality

This policy in no way limits or adjusts the School District's obligations to honor staff and student privacy rights. All applicable district policies and handbook provision governing confidentiality of student and staff medical information remain in full effect.

Transfer of Funds for Safety Purposes

The Board of Trustees may transfer state or local revenue from any budgeted or non-budgeted fund, other than the debt service fund or retirement fund, to its building reserve fund in an amount not to exceed the school district's estimated costs of improvements to school and student safety and security to implement this policy in accordance with District Policy 1006FE.
